TITLE 37—PATENTS. TRADEMARKS, AND COPYRIGHTS

Chapter I—Patent and Trademark Office, Department of Commerce

PART 2—RULES OF PRACTICE IN TRADEMARK CASES

Late Filed Fees for Section 8 Affidavits/Declarations and Notices of Opposition in Trademark Cases

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: This notice adopts rule changes which permit the acceptance of late fees in connection with notices of opposition and affidavits or declarations under § 8 of the act of July 5, 1946, as amended. These changes eliminate the need for petitioning the Commissioner for acceptance of such late fees. Under these changed rules, the Office will notify parties of the missing or deficient fees and provide for the acceptance of the appropriate fee within a designated time period upon payment of a service charge.

EFFECTIVE DATE: September 11, 1978.

FOR FURTHER INFORMATION CONTACT: J. Paul Williamson, Patent and Trademark Office, 703-557-2521.

SUPPLEMENTARY INFORMATION: On February 2, 1978, the Patent and Trademark Office published for comments a proposal (43 FR 4441, FR Doc. 78-2922) to revise §§ 2.1, 2.6, 2.101 and 2.162 of title 37 of the Code of Federal Regulations. Ten written comments were received in connection with the proposed changes and these written comments, together with an analysis of the comments, are available for public inspection in room 11E10 of Crystal Plaza Building 3, 2021 Jefferson Davis Highway, Arlington, Va. All comments were given careful consideration in the preparation of these final rules.

The only comment received which opposed the proposed rulemaking expressed the opinion that timely payment of a fee for at least one class was mandated by the statute in connection with an affidavit or declaration under § 8 and with an opposition.

Section 31 of the statute sets the required fees for the majority of activities in the Trademark Operation. However, it was held in "In re Kleiner," 185 USPQ 362 (Comr. Pat. 1975) that this section of the statute does not preclude the payment of a fee beyond the time allowed for filing a § 8 affidavit or declaration. Section 31 is not construed to require the "timely" filing of any fee. That section only determines the amount of the fee which must be paid. When the necessary fee must be paid is determined from other sections of the statute, that is, the particular sections dealing with the activity for which a fee is required.

Section 8 of the statute makes no reference to a fee and therefore there is no statutory mandate regarding the timeliness of such fee. Likewise, § 13 of the Statute does not preclude the payment of the required fee beyond the time allowed for filing the opposition. See *"Colgate-Palmolive Co.* v. *Brenner, Comr. of Pats.",* 148 USPQ 535 (S.D.N.Y. 1965) and *"Marzall, Comr. of Pats.* v. *Libby, McNeill and Libby,"* 89 USPQ 10 (D.C. Cir. 1951).

Finally, the comment opposing the rules changes expressed the concern that these changes may increase the administrative burden on the Patent and Trademark Office and, in a sense, encourage inattention to compliance with the act and the rules by some parties. With respect to the administrative burden on this Office, it is believed that the new procedures can be handled more efficiently and with less burden on the Office than the petition process now requires. Furthermore, as indicated in the proposed rules notice, the handling of such fees is considered to be of a ministerial nature and it is not believed that substantive rights should be immediately denied due to a failure to comply with a requirement of that nature. However, where the proposed procedure is not complied with, relief by way of petition to the Commissioner will require that the stringent standards of § 2.148 be satisfied.

One of the comments favoring the proposed changes also recommended that § 2.85(e) be amended to delete reference to the § 8 and opposition fees and to incorporate the concept of that rule into §§ 2.101 and 2.162. The basis of this suggestion was that the concept of § 2.85(e) does not logically fit with the other elements of § 2.85 and since changes are being made with §§ 2.101 and 2.162, it would make better sense to add this concept to those rules. While there is merit to the suggestion that the concept of § 2.85(e) does not logically fit with the other elements of § 2.85, it is believed that attorneys and other parties regularly practicing before this Office are now well aware of § 2.85(e). In those cases where parties are not aware of § 2.85(e), the Office notification of a deficiency of fees for the number of classes involved sufficiently alerts parties such that no prejudice results rom the "location" of the concept within the rules themselves. Therefore, rather than trying to embody the concept in five different rules covering fees for appeals, oppositions, cancellations, renewals and § 8 affidavits or declarations, it is considered more efficient to leave § 2.85(e) as is. However, the suggestion of this commenter that the revision to § 2.1 should include a reference to § 2.85(e) is valid and that change has been incorporated into the final rule.

Accordingly, pursuant to the authority contained in §§ 31 (b) and 41 of the act of July 5, 1946, as amended, the proposed amendments to the rules of practice, with the change noted above, are adopted as set forth below.

1. By revising § 2.1 to read as follows:

§ 2.1 *Sections of Part 1 applicable.*

Section 1.1 to 1.26 of this chapter are applicable to trademark cases except such parts thereof which specifically refer to patents and except § 1.22 to the extent that it is inconsistent with §§ 2.85(e), 2.101(c) or 2.162(d). Other sections of part 1 incorporated by reference or referred to in particular sections of this part are also applicable to trademark cases.

2. By the addition of new paragraph (g) to § 2.6 to read as follows:

§ 2.6 *Trademark fees.*

* * * * *

(g) For the special service of handling late filed fees in connection with an:

Affidavit or declaration under § 8	10.00
Opposition	25.00

* * * * *

3. By the addition of new paragraph (c) to § 2.101 to read as follows:

§ 2.101 *Filing an opposition.*

* * * * *

(c) If no fee, or a fee insufficient to cover at least one class, is filed within 30 days after publication of the mark to be opposed or within an extension of the time for filing an opposition, the opposition will not be refused if the required fee(s) and service charge (see § 2.6(g)) are filed in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Office. In situations covered by this paragraph, § 2.85(e) may not be utilized.

4. By revising paragraph (d) of § 2.162 to read as follows:

§ 2.162 *Requirements for affidavit or declaration during sixth year.*

* * * * *

(d) Include the required fee for each class to which the affidavit or declaration pertains in the registration. If no fee, or a fee insufficient to cover at least one class, is filed before the expiration of the sixth year following the date of registration or of publication under § 12(c) of the act, the affidavit or declaration will not be refused if the required fee(s) and service charge (see § 2.6(g)) are filed in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Office. In situations where a notice of deficiency is sent because no fee, or a fee insufficient to cover at least one class, is filed, § 2.85(e) may not be utilized. If insufficient fees are included to cover all classes in the registration, the particular class or classes to which the affidavit or declaration pertains should be specified;
